

## **Services**

Specializing in the human form, Michael Lerch Fine Art accepts appointments for most types of photography involving people. We do not accept appointments for weddings or uncontrollable children. Our studio is located a half mile south of OMSI, or we are happy to meet you on location.

## **Pricing**

Each photoshoot involves a session fee to cover the overhead, much like a service call that you may put in for another type of contractor (a plumber, electrician, etc). The session fee varies depending on the length of the shoot:

- Single Photo Headshots - \$50
- 30 minutes of photography, single outfit - \$75
- 60 minutes of photography, up to 3 outfits - \$125

Additional services are also available:

- Makeup Artist – \$100 – KiraKira Beauty is happy to provide makeup services. Kira has been working full time in the photography industry for over a decade and knows what types of makeup photograph well. If you choose not to use a makeup artist we can give you some tips on how to ensure your makeup photographs effectively at no charge. Photo makeup is very different than every-day makeup.

## **Commitment to Quality as well as the Local Economy**

Michael Lerch Fine Art is a locally owned small business in Portland, Oregon. We strive to provide the exceptional products and service while keeping the money local. After several years we've come to find that the best printers in the United States are small business owners that reside in Oregon and Washington. All of our prints are made with archival quality materials such as Fuji Crystal Archive paper and use local small businesses. Depending on the type of print ordered, we use printers in Portland, Ashland, Tigard, and Vancouver.

## Digital Images
